

Kindly enter the following amendments:

IN THE CLAIMS:

Please amend claims 1 and 2 as follows:

1. (Twice Amended) An organic electroluminescence device having at least an anode, a light-emitting zone and a cathode, wherein the light-emitting zone comprises a mixture containing at least two compounds, and [the] a spectrum of the luminescence from the light-emitting zone includes at least one peak at a wavelength which is different from spectrum any one of fluorescent peak positions of the at least two compounds included in light-emitting zone.

2. (Once Amended) The organic electroluminescence device according to Claim 1 wherein the spectrum of the luminescence from the light-emitting zone includes at least one peak at a wavelength which is longer than any one of the fluorescent peak positions of the separate compounds included in the light-emitting zone.

REMARKS

This paper is being provided in response to the March 26, 2002 Office Action for the above-referenced application. In this response, applicants have amended claims 1 and 2 in order to more particularly point out and distinctly claim that which applicant deems to be the invention. Applicants respectfully submit that the modifications to the claims are all supported by the originally filed application. Specifically, the amendments to
